Appendix 14.2. Proto-Sino-Tibetan and Amerind look-alikes. The numbers next to the Amerindian forms refer to pages from Greenberg's Language in the Americas (LIA) (1987). Proto-Sino-Tibetan/Proto-Tibeto-Burman reconstructions are from Benedict's Sino-Tibetan: a Conspectus (STC) (1972) and various works of Ffositam (JAM). LTBA = The journal Linguistics of the Tibeto-Burman Area. Since such reconstructions as are to be found in LIA are only of individual subgroups, not of Proto-Amerind itself, we have sometimes simply selected those forms from individual Amerind languages that look most like ST/TM etyma.
